

CONTENTS

TECHNICAL SESSION I : MODERN TECHNOLOGIES

1. 3S Prefab Building Technology - Case Study.....	3
V.G. Jana & Col. Sanjay Adsar	
2. Structural Systems for Seismic Resistance.....	9
Vinay Gupta	
3. Emerging Construction Technologies in India.....	17
Dr. K. M. Soni	
4. Integrated Transit Corridor Development in and Around Pragati Maidan, New Delhi – Case Study.....	24
Pradeep Kumar Parmar & Dhiraj Aggarwal	
5. Reinventing Construction Sector in India.....	36
Jit Kumar Gupta	
6. 3D Construction Mix Printer ('3DcMP') Fitted with a Disposable, Dispenser cum Extruder Unit- A Modern Tool in Built Environment.....	43
Dr. K. Kamal & Pulkit Tiwari	
7. Innovative Sandwhich Panel Technology and Construction Materials.....	48
Usha Batra	
8. Influences of Technology on Architecture and Design.....	55
Dr. Oscar Concessao & Dr. Ponni Concessao	
9. Applications of Bio-Concrete in the Built Environment: Problems and Prospects.....	61
Ajay Atwal & Dr. R.K. Khitoliya	
10. Innovative Construction Technologies and Materials.....	65
Keshao Gurumukhi & Vijay K. Saluja	
11. Countering Construction Challenges.....	72
Vivek Dixit & Aparna Dudwadkar Dixit	
12. Modern Construction Technology, Materials and Management Technique for Cost Effective Housing.....	76
Dr. J. Bhattacharjee	
13. Modern Technologies and Construction Management Tools in Construction of Tall Buildings of the World.....	82
Dr. Mutyala R. Prakash, Dr. Anara Sultanalieva & Gurinder Kaur	

14. Modern Methods of Construction Techniques.....	90
T. R. Dakshayani & Nisha	
15. Crack Management in Bulidings and their Remedies	94
Ajaya Kumar Harit	

TECHNICAL SESSION II : CONSTRUCTION MATERIALS

16. Use of Construction and Demolition Waste in Infrastructure Projects.....	99
K. K. Kapila & Dr. Mahesh Kumar	
17. Wood – Honeycomb Sandwich Construction.....	108
Shivangi Ajmera & Dr. Alok Ranjan	
18. Applicability of Ductile Iron Pipes in Gravity Sewer Network.....	114
Sabarna Roy & Rajat Chowdhury	
19. Steel Slag as a Substitute for Aggregates in Construction Industry for Sustainable Infrastructure Development.....	126
Gaurishankar Dubey	

TECHNICAL SESSION III : CONSTRUCTION MANAGEMENT TOOLS

20. Sustainable Building Design and Construction.....	135
A.K.Jain	
21. Communication – An Important Tool in Project Management.....	143
Krishna Kant	
22. Development of Probabilistic Cost Model for Incorporation of uncertainties in Cost Estimates.....	150
Arvind Kumar Meel & Dr. V. Thiruvengadam	
23. Comparative Study of the Cycle Time of Tall Structure based on CPM and DSM Methods – A Case Study.....	162
Bhaskar Dutta	
24. Project Performance Measuring and Forecasting: An Extension of Earned Value Management.....	167
Anita Susan Varghese & Dr. V. Thiruvengadam	
25. Applications of ‘Internet of Things’ in Various Domains and Sectors: A Smart City Perspective.....	178
Sameer Jain
