

INDIAN BUILDINGS CONGRESS

INVITATION OF ENTRIES FOR
IBC AWARDS
FOR EXCELLENCE IN
BUILT ENVIRONMENT

INDIAN BUILDINGS CONGRESS

Awards for Excellence in Built Environment 2023-24

OBJECTIVES

One of the important objectives of the Indian Buildings Congress (IBC) is to promote excellence in the field of Built Environment. While there is no doubt that outstanding structures are being created in the country, many a times such efforts go unnoticed by fellow professionals in particular and society at large. IBC, being a national body, seeks to encourage talented persons working towards improvement in Built Environment. IBC is looking for creations with good aesthetic and structural soundness & designs responding to the need for improvement in the Built Environment for Urban poor, Rural masses, etc. The idea behind the IBC Awards is to bring to light such efforts while recognizing the drive, imagination and creative thinking of individuals & groups. Particular emphasis will be on creative designs for buildings in disaster prone areas, buildings for the disabled, health care buildings etc. IBC Awards were instituted in the year 1996 and have been given every year thereafter, which have been highly acclaimed. These Awards will also bring the much needed attention of the society to the great contributions being made by the professionals in the field of Built Environment.

AWARDS

Awards will be given in each of the following categories subject to Entries being of meritorious quality, depicting excellence in overall design and concept :

- I. Residential units & Housing Complexes
