

Report on Two-Day's Training Program on “Repair and Rehabilitation of Concrete Structures”

A two-day training program on “**Repair and Rehabilitation of Concrete Structures**” was successfully conducted for Assistant Engineers, Executive Engineers and Superintending Engineers (AEs/EEs/SEs) on **25th–26th Sep 2026** at **IBC Headquarters, Sector VI, R.K. Puram, New Delhi – 110022**.

The program was indurated by Er. A K Sharma, Fmr SDG (CPWD).

The program witnessed active participation from around **32 Engineers**, representing various states across the country. The training aimed to enhance the technical knowledge and practical understanding of participants in the field of Repair and Rehabilitation of Concrete Structures and best practices prevalent in building construction.

Participation and Interaction

Participants actively engaged in discussions, shared field experiences, and clarified technical queries with the experts. The interactive nature of the sessions contributed to a deeper understanding of the subject matter

The training program was highly informative and beneficial to the participants. It provided valuable exposure to participants for Repair and Rehabilitation of Concrete Structures and practical approaches for implementation in ongoing and future projects.
