

Report on Two-Day's Training Program on “Sub Soil Investigation and Pile Foundation”

A two-day training program on “**Sub Soil Investigation and Pile Foundation**” was successfully conducted for Assistant Engineers, Executive Engineers and Superintending Engineers (AEs/EEs/SEs) on **24th – 25th August 2026** at **IBC Headquarters, Sector VI, R.K. Puram, New Delhi – 110022**.

The program witnessed active participation from around **21 Engineers**, representing various states across the country. The training aimed to enhance the technical knowledge and practical understanding of participants in the field of Sub Soil Investigation techniques & Pile Foundation details and best practices prevalent in building construction.

Participation and Interaction

Participants actively engaged in discussions, shared field experiences, and clarified technical queries with the experts. The interactive nature of the sessions contributed to a deeper understanding of the subject matter.

The training program was highly informative and beneficial to the participants. It provided valuable exposure to participants for Sub Soil Investigation & Pile Foundation and practical approaches for implementation in ongoing and future projects. The knowledge gained is expected to contribute significantly in improving construction quality and durability of structures.
