

**IBC Publications Available for Sale**

S. No	Publication & Brief Description	Price	Cover Page
1.	<b><i>Model Agreement to sell a flat between Seller &amp; Purchaser</i></b>	Out of Stock	
2.	<b><i>Effectiveness of Alternative Models of Land Use Planning:</i></b> Book contains useful reference material for all the planning agencies academic institutions, policy planners & local bodies to understand the relative advantages, limitations etc. of various land use planning models.	Rs.50/-	
3.	<b><i>Urban Infrastructure in India – An Overview :</i></b> This publication is about broad classification of Urban Infrastructure, historical review, development of infrastructure after independence, strategies for future etc	Rs.50/-	
4.	<b><i>Finance for Building Industry:</i></b> Publications deals with importance of building industry and resources of financial availability	Rs.50/-	
5.	<b><i>Habitat-Vision 2020:</i></b> Publication presents broad overview of the habitat, a road map and concerns of habitat, new ways of thinking about habitat planning and management.	Rs.50/-	
6.	<b><i>Rural Housing Policy :</i></b> The book is about Rural Housing Scenario, design of rural habitat, use of local materials, Rural Housing Programme and financial inputs.	Rs.50/-	

7.	<p><b><i>Housing Policy:</i></b></p> <p>The publication is about addressing the Housing Policy requirement useful to organization &amp; individuals engaged in this field.</p>	Rs.50/-	
8.	<p><b><i>Energy Conservation in Building</i></b></p>	Out of Stock	
9.	<p><b><i>Handbook on Seismic Retrofit of Buildings</i></b></p>	Out of Stock	
9(a)	<p><b><i>Making Building Safe Against Earthquakes -A Primer :</i></b></p> <p>The booklet envisages addressing the serious and wide spread problem of seismic vulnerability of buildings written in a simple language for the lay reader to broadly understand the aspect of seismic design and retrofit of building.</p>	Rs. 100/-	
10.	<p><b><i>Manual of Fire Safety in Buildings</i></b></p>	Out of Stock	

11.	<p><b><i>Public Toilet Facilities for Women in Indian Cities:</i></b></p> <p>The booklet gives a general assessment of the situation with regard to existing Public Toilet Facilities available to women in urban areas, toilet facilities for the Disabled, norms, management and maintenance of Public Toilet.</p>	Rs. 50/-	
12.	<p><b><i>Manual on Water Proofing of Buildings:</i></b></p> <p>This manual deals with the general concept of waterproofing preventive and remedial measures for seepage of water in various elements of building such as basement, roofs, kitchen, toilets, overhead tanks and waterproofing chemicals.</p>	Rs.250/-	
13.	<p><b><i>Quality Manual for Civil Works in Building:</i></b></p> <p>Publication deals with the topics of quality concept, quality assurance plan, quality control procedure, quality control materials and acceptance criteria.</p>	Rs.400/-	
14.	<p><b><u>Review on Jawahar Lal Nehru National Urban Renewal Mission (JnNURM)-A Preliminary Assessment:</u></b></p> <p>Publication deals with city development plan, funding pattern, public private partnership, urban reforms, and projects approved / completed under the scheme, best practices and revisiting the JnNURM.</p>	Rs.50/-	
15.	<p><b><i>A Guide to District Planning:</i></b></p> <p>The document deals with extensively on topics of preparation of district plan, maps and survey, finance, institutional framework for decentralized planning and emerging spatial planning.</p>	Rs.100/-	

16.	<p><b><i>Planning &amp; Management Approach Towards Storm Water Drainage for Delhi:</i></b></p> <p>Publication deals in detail the sources of storm water, natural drainage system, problems of drainage, storm water management, storm water pollution control, maintenance of drainage system and its design.</p>	Rs.100/-	
17.	<p><b><i>Guidelines for Design of Universally Accessible Built Environment:</i></b></p> <p>The booklet contains guidelines for barrier-free environment, useful for builders, designers and architects.</p>	Rs.80/-	
18.	<p><b><i>Guidelines For Electrical &amp; Mechanical Works in Buildings (Including Energy Conservation, Lifts &amp; Escalators, Life Safety and Security, Fire Safety System &amp; HVAC) :</i></b></p> <p>The book presents in a single volume the best of current building design and construction practices for electrical and mechanical works.</p>	Rs.500/-	
19.	<p><b><i>Use of Ferrocement in Buildings:</i></b></p> <p>Publication deal extensively with a number of aspects, including technical as well as practical aspects of use of Ferrocement in Buildings.</p>	Rs.150/-	
20.	<p><b><i>New Building Materials &amp; Technologies – Innovations in Concrete (Vol. I) :</i></b></p> <p>The Publication introduces innovative developments in concrete like high performance concrete, fiber reinforcement concrete, geo-polymer concrete, polymer concrete composite, self-compacting concrete, light weight concrete, reactive powder concrete, bio-mimetic and bacterial concrete, cold formed steel etc.</p>	Rs.500/-	

21.	<p><b>Concrete Technology:</b></p> <p>This book describes constituent materials of concrete and their properties, admixture, concrete mix proportioning, types of concrete, durability evaluation techniques for hardened concrete etc.</p>	Rs.500/-	
22.	<p><b>Affordable Housing:</b></p> <p>Focus in this book on resolving housing shortage, possible remedies for having sustainable affordable housing, effectively planning for affordable housing and sustainable and cost effectively building technologies for various building components and services.</p>	Rs.400/-	
23.	<p><b>Buyer's Guide (Part-I) Purchase of Residential Apartment Glossary &amp; Check List:</b></p> <p>The booklet contents the guidance for common man who intends to buy a residential apartment.</p>	Rs.75/-	
24.	<p><b>New Building Materials &amp; Technologies-Vol. II (Manufactured Sand, Fly Ash, Blast Furnace Slag, Geo-synthetics, Geo-polymers, Fibers &amp; Fiber Glass):</b></p> <p>The book introduces innovative materials like manufactured sand, flyash, blast furnace slag, geo-synthetics, geo-polymers, fibers, fibers glass etc.</p>	Rs.200/-	
25.	<p><b>New Building Materials &amp; Technologies Vol.III (Formwork, Flooring, uPVC Door-Windows, Hardware, Aluminum Composite Panel &amp; Paints):</b></p> <p>The book deals with application of new innovative materials like Formwork, Modern and Innovative Flooring, uPVC Doors and Windows, Architectural Hardware for Doors and Windows. Aluminum Composite Panel Cladding System and Paints. Useful for professionals engaged in creation of built environment.</p>	Rs.200/-	

26.	<p><b><i>Manual for Safety in Building Construction:</i></b></p> <p>The book deals with various aspects of safety, health and environment pertaining to construction workers. Very useful for consultants and practicing professionals involved in planning and execution of construction projects.</p>	Rs.200/-	
27.	<p><b><i>New Building Materials &amp; Technologies (Vol IV.-Compendium of New Building Technologies):</i></b></p> <p>The book deals with advance construction practices with green and smart materials like Brick &amp; Block Systems, Precast Concrete Systems for Walls and Floors, for Form Work Systems, EPS Core Panel &amp; EPS Beads System Light Gauge Steel Structures, other structural systems and Finishes and Services.</p>	Rs.800/-
